

This letter is my testimony and to show appreciation to Margo Siekerka for changing my life. My name is Geraldine G. Bair and I am happy to say, I'm a young 63 year old lady. When I was in my pre-teens, I received a kick on my tailbone that threw my left hip out of place, slanted all the vertebrae on that side and caused one leg to be one and one-half inches shorter than the other. This caused pain of which I had never experienced, going to the chiropractor became a way of life. Later on, when I was in high school, while most students were going to study hall, twice a week I would be excused to leave school to go to the chiropractor.

I can't say what the doctor's objective was, but mine was to make the pain disappear and stay gone. During my lifetime, I've had a half a dozen surgeries and chemotherapy for other health problems, including cancer. Through all the years the most persistent problem and unrelenting pain has been that in my back and hip. About 50 years after the accident, I was going to the chiropractor on an average of twice a week, when I met Margo. She began working on my back and hips right away and it stays in place now for a month or sometimes two months at a time. I've stopped going to the chiropractor completely. I believe that Margo Siekerka does both spiritual and physical healing with her mind and hands.
